## **Extractors from Festool – now available with cordless power**

**The new CTC SYS cordless extractors in the Systainer format**

**Festool's 18-volt range continues to expand, and now includes new cordless extractors for a healthy and dust-free working environment. Whether sawing, sanding or drilling: The cordless extractors in the Systainer format for dust classes L and M are ideal for spontaneous use as well as for servicing tasks and small jobs. Available from October 2022, the compact extractors bring even more portability and freedom to the 18-volt system – and less dust.**

Always by your side, without a cable: Systainer on the outside, cordless extractor on the inside. The new cordless Systainer extractors offer maximum mobility and freedom with minimal weight – perfect for transporting and carrying. "This makes our new cordless Systainer extractors the ideal partners for all service work and small tasks, as well as occasional spontaneous use. Our new extractors in the Systainer format are available in dust classes L and M for an instantly dust-free working environment, with no need to search for a plug socket," confirms Andreas Buck, Product Manager at Festool. As always, everything fits inside the system: Extractor, smooth suction hose, cordless tool, T-LOC Systainer connection. The innovative Bluetooth® autostart function or the convenient remote control on the suction hose ensure perfect interaction between the

cordless tool and the extractor. Both functions switch on the extractor automatically when the cordless tool starts up.

### **Powerful suction from battery power**

The compact cordless extractors offer impressive suction power: The 36-volt turbine (with two 18-volt battery packs) means they offer a comparable level of power to mains-operated extractors. The suction power itself can easily be adjusted over three levels. The appropriate level for the application can be selected, which in turn increases the total battery runtime. With four battery packs and the new TCL 6 DUO dual rapid charger, non-stop operation is now also possible in most cordless applications. From September 2022, Festool will be offering a variety of energy sets – conveniently packed in the Systainer<sup>3</sup>. These make the perfect addition to the cordless extractors – and to the new KSC 60 cordless sliding compound mitre saw, which is also available to buy from September. There are energy sets for every application, and these are of course compatible with the 18-volt range from Festool.

### **A perfect fit in the Systainer system**

In traditional Festool style, the new cordless extractors in the Systainer format can be paired and combined with the entire system from Festool – not only with the cordless tools but also with the entire Systainer range and bott vehicle equipment. The integrated Bluetooth<sup>®</sup> technology enables the extractors to interact efficiently with the cordless tools. Even more convenience comes from the rapid Bluetooth<sup>®</sup> autostart function via battery pack or remote control. The handy remote control positioned on the suction hose itself saves you walking back to the extractor – ideal for interim cleaning tasks. If that weren't enough, the smooth suction hose glides over every edge and is agile, ultra-robust and offers extremely flexible handling. In short, the system offers all-round perfection – after all, even the new CTC cordless extractors, chargers and battery packs are fully covered by Festool SERVICE, giving you peace of mind for your day-to-day work.

The new CTC SYS cordless extractors and the new energy sets are available from authorised dealers from September resp. October 2022. More information will be available on [www.festool.co.uk](http://www.festool.co.uk) from 2nd May 2022.

Total approx. 3,689 characters (including spaces)

**Technical data for CTC SYS cordless Systainer extractors**

	<b>CTLC SYS</b>	<b>CTMC SYS</b>
Battery voltage	36 V	36 V
Airflow max.	2400 l/min	2400 l/min
Max. vacuum	18,000 Pa	18.000 Pa
Filter surface area	5,357 cm <sup>2</sup>	5,357 cm <sup>2</sup>
Container/filter bag capacity	4.5/3.5 l	4.5/3.5 l
Dust class	L	M
Dimensions (L x W x H)	396x297x307 mm	396 x297x307 mm
Battery capacity	4 Ah	4 Ah
Runtime 2 x 4.0 Ah	14–25 min	14–25 min
Weight with battery	8.8 kg	8.8 kg

**Image: Festool-CTC-SYS-05.jpg**

**Transport comfortably in fewer trips:** The low weight, Systainer format and shoulder strap take the hassle out of carrying the extractor. This leaves your hands free for any other materials or tools you might need.

**Image: Festool-CTC-SYS-06.jpg**

**Strong suction:** Comparable power to the corded version thanks to the 36-volt turbine with 2x18-volt battery packs (4.0 Ah).

**Image: Festool-CTC-SYS-07.jpg**

**Just the size it should be:** The removable hose holder makes the CTC SYS even smaller.

**Image: Festool-CTC-SYS-08.jpg**

**Bluetooth® technology integrated:** Ideal interaction with Festool cordless tools. Convenient and fast: The extractor switches on automatically via the Bluetooth® battery pack.

**Image: Festool-CTC-SYS-09.jpg**

**Convenient remote control:** Switching on the extractor via the remote control positioned on the suction hose itself saves you walking back to the extractor.  
Ideal for occasional cleaning tasks.

**Image: Festool-CTC-SYS-10.jpg**

**Suction power control:** Suction power can be adjusted over three levels. The appropriate level for the application can be selected, which increases the battery runtime.

**Image: Festool-CTC-SYS-11.jpg**

**Smooth suction hose:** Smooth, agile and extremely robust. The suction hose impresses with flexible handling and glides over every edge.

**Image: Festool-CTC-SYS-12.jpg**

The new energy sets for every requirement: Safely stowed away and charged in a flash – battery packs and charger in the Systainer<sup>3</sup>.

**Image: Festool-CTC-SYS-13.jpg**

The new TCL 6 DUO rapid charger charges two batteries at once: One charger for two battery packs.

**Image: Festool-CTC-SYS-14.jpg**

Freedom: Extraction without any plug sockets – with 2x18-volt (4.0 Ah) battery packs.

**Image: Festool-CTC-SYS-15.jpg**

The new CTC SYS cordless extractors are designed with compatibility in mind, and can be connected with Systainers and integrated into both vehicle equipment.

**Image: Festool-CTC-SYS-16.jpg**

The FSC certification (FSC-C164884) relates to the filters included with the new CTC SYS cordless extractors.

**Image: Festool-CTC-SYS-16a.jpg**

**Image: Festool-CTC-SYS-17.jpg**

With this FSC certification (FSC-C164884), Festool is one of the first power tool manufacturers in the industry to be FSC-certified.

**Image: Festool-CTC-SYS-18.jpg**

The product chain certificate used by Festool ("chain of custody certificate") is intended for wood and paper products where all stages along the supply chain are FSC-certified. This makes it possible to trace the products right back to the forest owner.

**Image: Festool-CTC-SYS-19.jpg**

Freedom: Extraction without any plug sockets – with 2x18 V (4.0 Ah) battery packs.

**Image: Festool-CTC-SYS-20.jpg**

Practical design: Easy to carry thanks to the shoulder strap, and no bigger than it needs to be thanks to the removable hose holder.

**Image: Festool-CTC-SYS-21.jpg**

Power: Thanks to the 36-volt turbine, power comparable to a corded extractor.

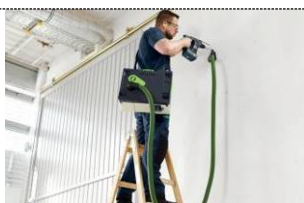

**Image: Festool-CTC-SYS-22.jpg**

The innovative Bluetooth® autostart or the practical remote control ensures a perfect interaction between the cordless tool and the extractor. This makes the system perfect in every way.

**Image: Festool-CTC-SYS-23.jpg**

Maximum mobility: Compact Systainer format and low weight make it ideal for transporting.

**Image: Festool-CTC-SYS-24.jpg**

The cordless extractor is the ideal partner for service work and small tasks, as well as occasional spontaneous use.

**Image: Festool-CTC-SYS-25.jpg**

The innovative Bluetooth® autostart or the practical remote control ensures a perfect interaction between the cordless tool and the extractor.

**Image: Festool-CTC-SYS-26.jpg**

All Festool chargers and battery packs, like all Festool tools, are of course completely covered by Festool SERVICE, giving you peace of mind for your day-to-day work.
