# **Limited edition: The SYS ECO Systainer<sup>3</sup> for Festool's 100th anniversary**

**Available from 13th January 2025 – while stocks last**

**In 2025, Festool will be celebrating its 100th anniversary with numerous limited-edition '100 years' versions of selected products. First and foremost, the anniversary starts with the very first promotion of the limited-edition promotional SYS ECO 100 Systainer<sup>3</sup> made from high-quality recycled material.**

Looking back, Festool can see that, over the past 100 years, the company has done everything it can to help trade businesses tackle their day-to-day work even more successfully. Festool is proud of the fact that, over the past 100 years, the company has put a multitude of innovations on the market that make professional craftsmanship quicker, easier and healthier. To celebrate this, Festool is offering the exclusive '100 years' version of the SYS ECO 100 Systainer<sup>3</sup> in a limited edition from January. The special edition highlights its exclusive status with a special look – the body is black and is made of a high-quality recycled material consisting of 65 per cent used plastic and 35 per cent new plastic. The used plastic is, in turn, made up of plastic waste that has already been through a life cycle. It is especially gratifying that, in total, 50 per cent less CO<sub>2</sub> is generated when manufacturing the material for this Systainer compared with the previous standard plastics. During development, Festool naturally made sure that the SYS ECO was as robust and temperature resistant as the previous Systainers. For this reason, the same test protocol
